International application No. International filing date PCT/US2004/039589

(day/month/year) 23/11/2004

Applicant

DEPUY SPINE, INC.

The applicant is hereby notified that the international search report and the writing opin

Filing of amendments and statement under Article 19:

Authority have been established and are transmitted herewith.

The applicant is entitled, if he so wishes, to amend the claims of the International Application (see Rule 46): The time limit for filing such amendments is normally 2 months from the date of transmittal of the

International Search Report; however, for more details, see the notes on the accompanying sheet. International Bureau of WIPO, 34 chemin des Colombettes 1211 Geneva 20, Switzerland, Fascimile No.: (41-22) 740.14.35 Where? Directly to the

For more detailed instructions, see the notes on the accompanying sheet.

The applicant is hereby notified that no international search report will be established and that the declaration under Article 17(2)(a) to that effect and the written opinion of the International Searching Authority are transmitted herewith.

With regard to the protest against payment of (an) additional fee(s) under Rule 40.2, the applicant is notified that:

the protest together with the decision thereon has been transmitted to the International Bureau together with the applicant's request to forward the texts of both the protest and the decision thereon to the designated Offices. no decision has been made yet on the protest; the applicant will be notified as soon as a decision is made.

#### 4. Reminders

Shortly after the expiration of 18 months from the priority date, the international application will be published by the International Bureau. If the applicant wishes to avoid or postpone publication, a notice of withdrawal of the international application, or of the priority claim, must reach the International Bureau as provided in Rules 90bis.1 and 90bis.3, respectively, before the completion of the technical preparations for international publication.

The applicant may submit comments on an informal basis on the written opinion of the International Searching Authority to the International Bureau. The International Bureau will send a copy of such comments to all designated Offices unless an international preliminary examination report has been or is to be established. These comments would also be made available to the public but not before the expiration of 30 months from the priority date.

Within 19 months from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices.

In respect of other designated Offices, the time limit of 30 months (or later) will apply even if no demand is filed within 19

See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the PCT Applicant's Guide, Volume II, National Chapters and the WIPO Internet site.

### **NOTES TO FORM PCT/ISA/220**

These Notes are intended to give the basic instructions concerning the filing of amendments under article 19. The Notes are based on the requirements of the Patent Cooperation Treaty, the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and those requirements, the latter are applicable. For more detailed information, see also the *PCT Applicant's Guide*, a publication of WIPO.

In these Notes, "Article", "Rule", and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

#### **INSTRUCTIONS CONCERNING AMENDMENTS UNDER ARTICLE 19**

The applicant has, after having received the international search report and the written opinion of the International Searching Authority, one opportunity to amend the claims of the international application. It should however be emphasized that, since all parts of the international application (claims, description and drawings) may be amended during the international preliminary examination procedure, there is usually no need to file amendments of the claims under Article 19 except where, e.g. the applicant wants the latter to be published for the purposes of provisional protection or has another reason for amending the claims before international publication. Furthermore, it should be emphasized that provisional protection is available in some States only (see *PCT Applicant's Guide*, Annexes B1 and B2).

The attention of the applicant is drawn to the fact that amendments to the claims under Article 19 are not allowed where the International Searching Authority has declared, under Article 17(2), that no international search report would be established (see *PCT Applicant's Guide*, Volume I/A, paragraph 296).

#### What parts of the international application may be amended?

Under Article 19, only the claims may be amended.

During the international phase, the claims may also be amended (or further amended) under Article 34 before the International Preliminary Examining Authority. The description and drawings may only be amended under Article 34 before the International Examining Authority.

Upon entry into the national phase, all parts of the international application may be amended under Article 28 or, where applicable, Article 41.

#### When?

Within 2 months from the date of transmittal of the international search report or 16 months from the priority date, whichever time limit expires later. It should be noted, however, that the amendments will be considered as having been received on time if they are received by the International Bureau after the expiration of the applicable time limit but before the completion of the technical preparations for international publication (Rule 46.1).

## Where not to file the amendments?

The amendments may only be filed with the International Bureau and not with the receiving Office or the International Searching Authority (Rule 46.2).

Where a demand for international preliminary examination has been/is filed, see below.

### How?

Either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed.

A replacement sheet must be submitted for each sheet of the claims which, on account of an amendment or amendments, differs from the sheet originally filed.

All the claims appearing on a replacement sheet must be numbered in Arabic numerals. Where a claim is cancelled, no renumbering of the other claims is required. In all cases where claims are renumbered, they must be renumbered consecutively (Administrative Instructions, Section 205(b)).

The amendments must be made in the language in which the international application is to be published.

### What documents must/may accompany the amendments?

#### Letter (Section 205(b)):

The amendments must be submitted with a letter.

The letter will not be published with the international application and the amended claims. It should not be confused with the "Statement under Article 19(1)" (see below, under "Statement under Article 19(1)").

The letter must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

## INTERNATIONAL SEARCH REPORT

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. χ Claims Nos.: — because they relate to subject matter not required to be searched by this Authority, namely:
Claims 1-10, 89: Rule 39.1(iv) PCT - Method for treatment of the human or animal body by therapy
Claims Nos.:     because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
see additional sheet
As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
1-10, 89
Remark on Protest
No protest accompanied the payment of additional search fees.

## FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-10, 89

Treatment of uncoupled resorbing bone (induding osteoporotic bones) by administration of a bone forming agent and an anti-resorptive agent, wherein at least the former is locally administered into the bone.

2. claims: 11-20,51-59, 80-88

Kit (for treating osteoporotic bone) comprising: an osteoconductive/bone growth material, an anti-resorptive agent, and means for delivering said agents into the bone

3. claims: 21-30

Method of treating osteoporosis in a patient by local administration of a highly specific cytokine antagonist into an uncoupled resorbing bone

4. claims: 31-49

Osmotic pump implant for providing sustained delivery of agent/s into a bone

5. claim: 50

Device for providing sustained delivery of an anti-resorptive agent into a bone with chamber, exit port and means for expellig the agent

6. claim: 60

Method of treating an osteoporotic patient by inserting a bone growth agent into a vertebral body, removing a portion of the intervertebral disc and inserting a spinal implant into the created disc space

7. claims: 61-69

kit (for treating osteoporosis) with a bone forming agent and a highly specific cytokine antagonist

8. claim: 70

## FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Method of treating a non-tumorous uncoupled resorbing bone by locally administering an anti-resorptive agent into the bone

## 9. claims: 71-79

Drug delivery implant for providing sustained release of a therapeutic agent to a bone comprising a drud pump and a carrier

# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2004/039589

_	Box No. I Basis of the opinion								
1.	. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.								
	☐ This opinion has been established on the basis of a translation from the original language into the following language which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).								
2.	With regard to any <b>nucleotide and/or amino acid sequence</b> disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:								
	a. type of material:								
			a sequence listing						
			table(s) related to the sequence listing						
	<b>b</b> . 1	form	at of material:						
			in written format						
			in computer readable form						
	c. t	time	of filing/furnishing:						
			contained in the international application as filed.						
			filed together with the international application in computer readable form.						
			furnished subsequently to this Authority for the purposes of search.						
3.		ha co	addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto is been filed or furnished, the required statements that the information in the subsequent or additional pies is identical to that in the application as filed or does not go beyond the application as filed, as propriate, were furnished.						

4. Additional comments:

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2004/039589

	No. III Non-establishment olicability	of op	inion with regard to novelty, inventive step and indust	rial			
The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be industrially applicable have not been examined in respect of:							
$\boxtimes$	claims Nos. 1-10,89, in respect	t of IA	1				
bec	because:						
	the said international application, or the said claims Nos. 1-10, 89 relate to the following subject matter which does not require an international preliminary examination (specify):						
	see separate sheet						
	the description, claims or drawings (indicate particular elements below) or said claims Nos. are so unclear that no meaningful opinion could be formed (specify):						
	the claims, or said claims Nos. are so inadequately supported by the description that no meaningful opinion could be formed.						
	no international search report h	nas b	een established for the whole application or for said claim	s Nos.			
	the nucleotide and/or amino acid sequence listing does not comply with the standard provided for in Annex C of the Administrative Instructions in that:						
	the written form		has not been furnished				
			does not comply with the standard				
٠	the computer readable form		has not been furnished				
			does not comply with the standard				
	the tables related to the nucleotide and/or amino acid sequence listing, if in computer readable form only, do not comply with the technical requirements provided for in Annex C-bis of the Administrative Instructions.

2.	Citations a	and explanations				

see separate sheet

## Comments on item III

Claims 1-10 and 89 relate to subject-matter considered by this Authority to be covered by the provisions of Rule 67.1(iv) PCT. Consequently, no opinion will be formulated with respect to the industrial applicability of the subject-matter of these claims (Article 34(4)(a)(i) PCT).

### Comments on item IV

The International Examining Authority considers that the International Application does not comply with the requirements of unity of invention (Rule 13.1, 13.2 and 13.3 PCT) for the reasons indicated in the 'Invitation to pay additional fees' of the International Search Report (ISR).

At present, the search made covers only the first group of inventions among the nine groups found. Hence, the present opinion refers only to the claims belonging to the first group of inventions, i.e, claims 1-10 and 89.

## Comments on item V

- 1. The documents cited in the International Search Report correspond respectively to D1-D8. Any reference to the documents in the present written opinion relates to the passages given in said report, unless otherwise indicated.
  - D1: EP-A-0 950 417
  - D2: YAFFE A ET AL: "Combined local application of tetracycline and bisphosphonate reduces alveolar bone resorption in rats" JOURNAL OF PERIODONTOLOGY 01 JUL 2003 UNITED STATES, vol. 74, no. 7, 1 July 2003, pages 1038-1042
  - D3: US 2003/207827 A1
  - D4: WO 99/45923 A
  - D5: CRANDALL C: "Combination treatment of osteoporosis: A clinical review"

    JOURNAL OF WOMEN'S HEALTH AND GENDER-BASED MEDICINE 2002

    UNITED STATES, vol. 11, no. 3, 2002, pages 211-224
  - D6: EZRA A ET AL: "ADMINISTRATION ROUTES AND DELIVERY SYSTEMS OF

- BISPHOSPHONATES FOR THE TREATMENT OF BONE RESORPTION" ADVANCED DRUG DELIVERY REVIEWS, AMSTERDAM, NL, vol. 42, no. 3, 31 August 2000, pages 175-195
- D7: NAKAMURA K ET AL: "Stimulation of endosteal bone formation by local intraosseous application of basic fibroblast growth factor in rats" REVUE DU RHUMATISME (ENGLISH EDITION) 1997 FRANCE, vol. 64, no. 2, 1997, pages 101-105
- D8: DESANTIS A ET AL: "Current and emerging therapies in osteoporosis" EXPERT OPINION ON PHARMACOTHERAPY 2002 UNITED KINGDOM, vol. 3, no. 7, 2002, pages 835-843.
- 2. As explained in the ISR, both the combination of bone-forming and anti-resorptive agents and its use for treating excess of bone resorption were well known in the art at the date of filing (see D1 to D6). Even though the first approaches to these therapeutic combinations had been done with systemic administration, local delivery to the bone had also been widely disclosed (mainly with biodegradable polymers and osteoconductive materials, see specially D1, D3 and D6).
  Reference is made to ISR concerning the specific dependent claims anticipated by each document.
- 3. For the assessment of the present claims 1-10 and 89 on the question whether they are industrially applicable, no unified criteria exist in the PCT Contracting States. The patentability can also be dependent upon the formulation of the claims. The EPO, for example, does not recognize as industrially applicable the subject-matter of claims to the use of a compound in medical treatment, but may allow, however, claims to a known compound for first use in medical treatment and the use of such a compound for the manufacture of a medicament for a new medical treatment.
